Globally recognised health, safety
and environmental qualifications

Provide proof of your environmental credentials anywhere in the world with the NEBOSH Certificate in Environmental Management.

'The Environment Agency is pleased to support this NEBOSH qualification. It provides participants with the knowledge to deliver good quality environmental management with the bottom line, reputational and compliance benefits which flow from it.'

Sir James Bevan,
Chief Executive,
Environment Agency

What kind of people take the NEBOSH Certificate in Environmental Management?

People throughout the world who understand the growing importance of holding a recognised and respected environmental management qualification.

What will I gain from this qualification?

Knowledge - Environmental management, legislation and standards can seem daunting. This qualification will give you the kind of specialist knowledge you can apply straight away, wherever you work.

Recognition - Achieving your NEBOSH Certificate in Environmental Management means that you have fulfilled the requirements for IEMA Associate level membership (AIEMA) as long as you apply within three years of achieving your Certificate.

The Certificate is also accepted by The Chartered Institution of Water and Environmental Management (CIWEM) to meet the requirements for Technician Membership (TechCIWEM).

It also meets the requirements for Associate Membership (AIIRSM) of the International Institute of Risk and Safety Management (IIRSM).

Enjoyment - You'll enjoy taking the NEBOSH Certificate in Environmental Management. You'll discover skills and techniques that are useful and practical, and your confidence will grow.

Career development - Gaining specialist knowledge of environmental management will give you an extra set of skills that could help bring success and advancement to your career.

What will my employer gain from this qualification?

A more sustainable workplace -

Environmental management is important. It protects the planet and our future. People with the NEBOSH Certificate in Environmental Management are able to help their employers avoid prosecution, litigation and loss of reputation and demonstrate social responsibility.

Assurance - Organisations employing people with this qualification show a commitment to the environment. Something that will assure staff, customers and others, and which could help achieve recognised standards and even win new business.

Return on investment - An employee with a NEBOSH Certificate in Environmental Management has a practical set of skills that brings real value to the modern workplace.

What does the course cover?

Topics include:

- Environmental Management Systems (ISO14001) and Impact Assessments
- Sources and use of energy and energy efficiency
- Control of pollution
- Planning for and dealing with environmental emergencies

Details of our syllabus, which is based on best practice and international industry standards, can be found on our website.

How is the course assessed?

By written examination **and** a practical environmental review carried out in the workplace.

Can the Environmental Certificate complement other NEBOSH qualifications?

It certainly can. NEBOSH research shows that around two thirds of health and safety management positions at work also feature responsibility for environmental management. It can therefore be useful combining one of our health and safety qualifications with the Environmental Certificate. The Certificate can also be a useful stepping stone towards achieving our professional level Environmental Diploma.

Where can I take a course leading to this qualification?

Details of over 600 training providers operating throughout the world are on our website. These training providers offer courses to fit around your requirements:

- Distance or E-learning
- Day or evening courses
- Block release or modular courses

Sometimes courses can be arranged to take place where you work. Employers can also become accredited NEBOSH course providers so that they can provide in-house training for staff.
