**Globally recognised health, safety
and environmental qualifications**

Reduce environmental risk, control costs and enhance your reputation with our introductory NEBOSH Environmental Awareness at Work qualification.

What can the NEBOSH Environmental Awareness at Work qualification do for my organisation?

Improved environmental performance – Implementing a successful Environmental Management System such as ISO 14001 requires workers to recognise the impact they have on the environment.

The NEBOSH Environmental Awareness at Work qualification will introduce your workforce to environmental issues and the role they play in improving organisational environmental performance.

Return on investment – Employees can apply their learning as soon as they return to work. This could help your organisation reduce waste, improve energy efficiency, achieve cost savings and help avoid legal action.

Assurance – With global industry needing to be more aware of its impact on the environment, a business with a sound environmental record has an advantage in the modern market place.

What kinds of people take the NEBOSH Environmental Awareness at Work qualification?

Anybody who needs a basic understanding of environmental issues in the workplace. It provides a general awareness of environmental issues and can be taken by employees at all levels within the organisation.

“It is estimated 2% of UK business profits per year may be lost through inefficient use of resources. UK businesses could save around £23bn per year by making simple changes to use resources more effectively and help protect the environment.”

UK Department of Environment, Food and Rural Affairs – DEFRA

What does the course cover?

The NEBOSH Environmental Awareness at Work qualification is designed to cover a range of issues affecting the global environment.

Topics include:

- Basic environmental terms and their meaning
