Globally recognised health, safety and environmental qualifications

Stand out and gain recognition for your environmental management know-how with the NEBOSH National Diploma in Environmental Management.

What kind of people take the NEBOSH National Diploma in Environmental Management?

This qualification is designed for individuals with responsibilities for environmental management. It provides specialist knowledge on issues such as environmental leadership, sustainability and pollution prevention and control. It is invaluable for managers taking on environmental responsibilities and those aiming to develop and implement effective environmental management systems within their organisation.

What will I gain from this qualification?

Expertise – The NEBOSH National Diploma in Environmental Management will help you develop and implement highly effective environmental risk management within your organisation.

Achievement – A NEBOSH Diploma is a degree level qualification that is seen throughout the world as a mark of professionalism. The NEBOSH National Diploma in Environmental Management is a qualification you can be proud of.

You will be able to use the designatory letters EnvDipNEBOSH after your name.

Career development – The NEBOSH National Diploma in Environmental Management will help you stand out and provide you with a platform for further career advancement. It could take you to the next level and beyond. It also provides a sound basis for progression to further study at Masters level.

What will my employer gain from this qualification?

Assurance – An employer whose staff are NEBOSH qualified is an employer committed to managing environmental impacts. The achievement of NEBOSH National Diploma in Environmental Management provides professional-level environmental assurance – which can help employers achieve recognised management standards, such as ISO:14001, and help to win new business.

A more sustainable workplace – People with the NEBOSH National Diploma in Environmental Management help their employers to not only avoid prosecution, litigation and loss of reputation, but demonstrate key social responsibility and prevent environmental pollution.

Return on investment – A worker with a NEBOSH National Diploma in Environmental Management has a set of high level skills that brings real value to the modern workplace.

What does the course cover?

This qualification covers environmental management principles and the main pieces of UK and European Union legislation for environmental protection, energy efficiency, and management and control of environmental risk.

The syllabus is designed to provide learners with the relevant expertise and to empower them to positively influence environmental management standards and practice at every organisational level. Key topics covered by this qualification include:

- Benefits, limitations and structure of an environmental management system
- Environmental aspect identification
- The principles and drivers for environmental sustainability
- Principles of pollution prevention and control

How is the course assessed?

Unit ED1: 'Controlling Environmental Aspects' – is assessed by a single written examination. This is a common unit that can also contribute to achievement of the NEBOSH International Diploma in Environmental Management.

Unit NDEM2: Environmental Regulation – is assessed through an assignment based in the learner's workplace.
