Certificate

Globally recognised health, safety
and environmental qualifications

A solid technical and practical introduction to environmental management; you'll be well equipped to make a positive impact in the workplace.

Who is it for?

If you have environmental management responsibilities at work, this globally relevant qualification is for you.

You will be able to help your organisation manage its positive and negative environmental aspects and support the implementation and continuous improvement of effective environmental management systems.

What will I learn?

Through study and workplace application, you will be able to:

- justify environmental management in the workplace
- recognise which workplace activities may be subject to environmental legislation or enforcement
- assess environmental aspects and impacts and evaluate current controls
- support environmental emergency planning
- understand the importance of reducing environmental harm
- outline the issues associated with waste and its management
- explain the pros and cons of various energy sources and how to use them more efficiently

How will it help me?

This qualification will allow you to:

- understand a range of environmental issues so you can improve performance and reduce harm
- work with an environmental management system and contribute to continual improvement
- recognise environmental aspects and evaluate current controls
- support decision-making with ethical, legal and financial arguments
- understand the links between your organisation's activities and wider environmental issues

Advantages for employers

This qualification will help organisations to:

- meet legal responsibilities and reduce its impact on the environment
- avoid the reputational and financial damage that an environmental incident can cause
- reduce costs by utilising resources efficiently and potentially lowering insurance premiums
- demonstrate its commitment to the environment, which could win new business

How is it assessed?

The assessment for this qualification comprises of:

Unit EMC1: Environmental management	An examination which you will have 24 hours to download, complete and submit
Unit EMC2: Assessing environmental aspects and associated impacts	This practical assessment requires you to apply your learning to a workplace of your choice

Where can I take the NEBOSH Environmental Management Certificate?

Details of NEBOSH Learning Partners throughout the world can be found on NEBOSH's website.

"I think this is an excellent qualification for people, like me, looking to formalise their experience in environmental management or for those embarking on a career in the field. Marchwood is very supportive of training and it was important to me to bring myself up to date from a qualifications perspective."

Tim Compton
Environmental Health and Safety (EHS) Lead, Marchwood Power Ltd.
