# INVITATION

Dear Colleagues,

The Global HSE 2018 International Conference and Exhibition will be held in the State of Kuwait in 12-14 February 2018. The event is being hosted by Kuwait Petroleum Corporation in cooperation with major companies in the Middle East and Asia Pacific Region.

Global HSE has built a growing reputation for being a significant technical and networking platform with an established track record in promoting the latest developments in health, safety and environment. Keeping in mind present market conditions, it is imperative to seize any opportunity to interact, collaborate, innovate and build resilience in our industry.

This conference and exhibition will provide a platform for stakeholders from various parts of the world to build partnerships and share knowledge in the field of HSE. I am confident that the event will provide a fantastic opportunity for knowledge sharing and discussion around best practices that will further contribute to the creation of a proactive and dynamic safety culture in the workplace.

Kuwait is committed to ensuring the highest standards of Health, Safety and Environment in all sectors of industry. The challenges faced by us in our country are no different from those experienced worldwide. In partnership with stakeholders and in collaboration with leading oil and gas companies, the Kuwait Ministry of Oil is determined to further develop an integrated strategy which aims to diversify HSE resources, reduce cost, and sustain safe and environment friendly operations.

On behalf of Global HSE and Kuwait Petroleum Corporation I invite you to participate in Global HSE 2018 International Conference and Exhibition.

I look forward to seeing you at the Global HSE event in the State of Kuwait in February 2018

**Bakheet S. Al-Rashidi**

Minister of Oil & Minister of Electricity & Water  
Chairman of the Board, Kuwait Petroleum Corporation  
State of Kuwait

# INVITATION

Dear Industry Colleagues,

I would like to take this opportunity with special honour and privilege to welcome all distinguished industry members and colleagues to participate in the Global HSE 2018, the 6th Edition of this International Conference and Exhibition for the HSE Fraternity in the Middle East and Asia Pacific domain.

In today's world, businesses need to develop and adopt a proactive HSE culture that focuses on prevention of incidents rather than a reactive culture based on managing costs and implications after the incident. Ensuring uncompromising compliance with world class safety standards and pursuing the adoption of global best practices is important for organizations to change the focus of their safety strategies from the traditional 'control of conditions and causes of accidents' to integrating risk management practices as part of daily activities. It is important to understand that a proactive HSE culture is never achieved through quick-fix solutions. It evolves over a period of time through incremental changes based on a range of dynamic and progressive processes.

Global HSE is an industry driven event primarily organised and supported by the industry. Since its inception in 2013, Global HSE has diversified and expanded to different major industries and thereby sustained the objective of disseminating HSE Standards, sharing best practices to the community along with enabling the exchange of thoughts on understanding the dynamic and progressive processes for the development of such a strong HSE culture across all major industries.

This prestigious event provides an excellent platform for companies to maximise their exposure to international HSE communities through exhibiting and presenting. Alongside the technical sessions, conference delegates will be able to look at and discuss with potential suppliers and consultants for their own projects making this an ideal opportunity to showcase innovative technologies, products and solutions to an audience of buyers and influencers.

The sixth Edition of Global HSE seeks to capitalize on the momentum generated by the previous editions that were extremely well received and supported by international associations & organisations.

KPC is proud to be amongst those organisations that value health, safety & the environment which is directly driven by the senior management throughout our journey. The leadership team across organisations must be the key to leading this paradigm shift in transforming HSE culture, to make business processes state of the art, safe and sustainable for the future.

With regards to the above context I once again, on behalf of KPC & Global HSE 2018 would like to take this opportunity with great privilege to invite all distinguished members of the industry to actively participate at the largest gathering of HSE leaders, practitioners and experts from across the globe in the region.

I look forward to seeing you all at Global HSE 2018 which will be held in the State of Kuwait from February 12-14, 2018.

**Nizar M. Al Adsani**  
Deputy Chairman & CEO  
Kuwait Petroleum Corporation

# INVITATION

Dear Industry Colleagues,

As the Conference Chairman, I am pleased to announce the sixth edition of “Global HSE, The International Conference & Exhibition on Health, Safety & Environment” covering all major industrial sectors. It will be organized under the esteemed patronage of **H.E. Bakheet S. Al-Rashidi, Minister of Oil & Minister of Electricity & Water, Chairman of the Board, Kuwait Petroleum Corporation, State of Kuwait**, and hosted by **Kuwait Petroleum Corporation** in collaboration with the **Gulf Downstream Association (GDA)**. It will take place during **12th – 14th February 2018** at Jumeirah Messilah Beach Hotel, Kuwait.

The sixth Global HSE event would be the largest gathering with wider opportunities to interact and learn from distinguished leaders, practitioners and experts of HSE. The focus would be on enhancing HSE standards for protecting the lives of people and sustaining the environment – vital to current operations and of widespread strategic importance to the ecosystem.

Global HSE has developed a reputation as an excellent venue for bringing together HSE Leaders, Subject Matter Experts from all over the world, enabling the exchange of best practices and the global development of a strong safety culture.

We pride ourselves on conducting our business in the safest environment possible with the goal of achieving zero harm to people and the environment. We apply the highest HSE standards throughout our design, construction, operations and decommissioning stages. We have committed to all our stakeholders that we will set and review HSE goals, conduct regular risk audits and communicate our HSE policy to all contractors and suppliers.

This event will once again help promote a shared commitment to important HSE values and in this context, I extend my invitation to all industry colleagues to actively participate in Global HSE 2018 as we enforce our commitment to work together to ensure safer industries, happier employees and healthier communities.

Looking forward to seeing you at Global HSE 2018 - State of Kuwait.

**Mohammad Ghazi. Al-Mutairi**  
Chairman, Global HSE 2018  
Chief Executive Officer  
Kuwait National Petroleum Company

# About the Event

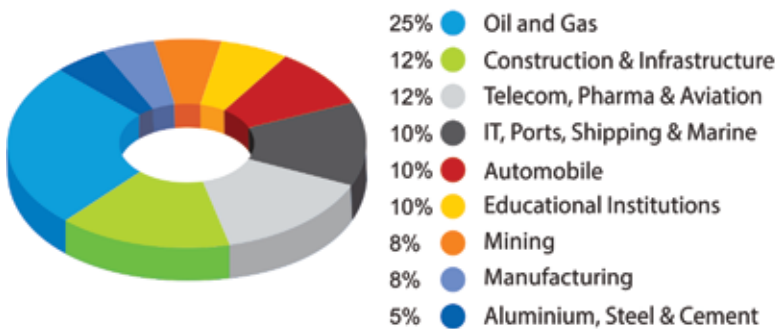

Global HSE is an International cross industry platform initiated and pioneered by a Governing council consisting of HSE Thought Leaders from all major industries in the Asia Pacific and MENA Region. It is a revolving calendar event across the world which discusses leadership commitment and their alignment towards HSE.

Global HSE positions it self within every destination it revolves as the premier platform for Creating Safe & Sustainable Future through Business Excellence. It facilitates cross culture learning and cross industry growth by learning from each other.

All Global HSE Editions are hosted by a country and led by a major organization within the country along with overwhelming support from Government, Industry, Regulators, NGOs & Academic Institutions globally and within the region.

The Global HSE Initiative has evolved as the leading event to showcase latest innovative technologies, services and products available to the industry and aims at creating an international community and gathering of leaders & professionals focused on solutions to protect the lives of people and the environment for all major industries.

# Global HSE 2018

Global HSE is a cross industry gathering of organisational leaders, senior managers and HSE practitioners to discuss, present and debate contemporary issues related to HSE industry, primarily focussing on the MENA Region and Asia Pacific Region. Health, Safety & Environment compliance is an important and integral discipline that respond to the need of providing a healthy and safe working environment to the industrial workers. The conference will poise to deliver on a varied number of topics and subjects that involved critical and current issues relating to HSE management globally and regionally. Senior business and industry leaders who have been involved in safety and HSE transformations within their organizations will bring forth on their experience and insights. This conference has been launched into an international platform which brings international and regional experts under the unique theme of 'Creating Safe and Sustainable Future Through Business Excellence'. The conference would have a balanced mix of key notes from organisational and HSE leaders, technical presentations, interactive panel discussions and pre conference workshops.
