Globally recognised health,
safety, environmental, risk and
wellbeing qualifications

Over 250,000 people hold a NEBOSH National General Certificate in Occupational Health and Safety. Why? Because it's the gold standard in health and safety qualifications.

This qualification is designed to meet the needs of today's employers, giving learners everything they need to know and do to make their workplace safer.

Who's it for?

Relevant to every workplace, the NEBOSH National General Certificate is ideal for managers, supervisors and anybody with health and safety management responsibilities. It's also perfect for those embarking on a health and safety career and gives you a stepping stone to success.

What will I know?

With in-depth focus on the things that matter, the NEBOSH National General Certificate covers:

- How to effectively manage health and safety
- How to identify and control common workplace hazards
- How to measure if you've been successful
- The UK's key legal requirements

What will I be able to do?

Risk assessment is central to the qualification. Through study and workplace application, successful learners will be able to:

- Confidently carry out risk assessments
- Develop and implement a detailed action plan
- Manage and minimise workplace risks
- Support and develop your company's health and safety culture

Transform your career: how will it help me?

The National General Certificate will give you invaluable knowledge and skills AND a globally respected qualification that supports your current role and your long-term health and safety career.

Transform your workplace: advantages for employers

According to the Health and Safety Executive, workplace injuries and ill-health costs Great Britain over £21.6 billion per year.

The NEBOSH National General Certificate gives learners the knowledge, understanding and skills they need to help your organisation to:

- Comply with legal requirements
- Reduce workplace injuries and illness
- Improve employee morale
- Demonstrate your commitment to health and safety which could help you win business
- Strengthen your health and safety culture
- Build valuable in-house health and safety expertise

Course Delivery and Assessment

This qualification can be studied via eLearning or face-to-face with NEBOSH Accredited Learning Partners located around the world. Engaging activities, interactive materials, and structured learning combine to create a dynamic and rewarding experience. The course focuses on developing key practical skills, enabling you to immediately apply your knowledge and make a meaningful impact within your organisation.

There are two unit assessments designed to evaluate what you know and can do:

- Scenario-based assessment
- A practical risk assessment

 "In my safety team, NEBOSH is regarded as the go-to organisation for health and safety qualifications. I chose the NEBOSH National General Certificate in Occupational Health and Safety because it matched my duties at the time. It gave me the skills to identify and manage risks, promote safe working practices, and educate others to help achieve our health and safety performance goals and objectives. It played a key role in developing my competence in health and safety."

Bruce Bahlaj

Health and Safety Manager, Auto Windscreens
