NEBOSH International Certificate in Construction Health and Safety

Certificate

Globally recognised health, safety
and environmental qualifications

Gain the qualification that is raising standards of health and safety in construction throughout the world.

What kind of people take the NEBOSH International Certificate in Construction Health and Safety?

People from across the world who work in construction, civil engineering, utilities, facilities, broadcasting, property management and more. It is particularly suitable for managers, supervisors and others who need the right level of skills and knowledge to fulfil their health and safety responsibilities.

What will I gain from this qualification?

Knowledge – Whether health and safety is your main responsibility, or just a part of what you do, the NEBOSH International Certificate in Construction Health and Safety will give you vital knowledge to help you perform better in your role. You'll discover skills and techniques that are really useful and practical, not just theoretical.

Recognition – NEBOSH is highly regarded in the construction industry.

Our National Certificate in Construction Health and Safety is also accepted by:

- IOSH (Institution of Occupational Safety and Health) to meet the academic requirements for Technical Membership (Tech IOSH)
- IIRSM (International Institute of Risk and Safety Management) for Associate Membership (AIIRSM)

It also makes a significant contribution towards the points required for registered membership of the Association for Project Safety (APS).

Career development – For some, the International Construction Certificate can be a first step towards a career in health and safety. For others, it forms part of an important set of qualifications which brings them success and advancement in their chosen field.

What will my employer gain from this qualification?

A safer workplace – Construction work can be very dangerous. Done properly, health and safety protects people from injury and loss of life. People with the NEBOSH International Certificate in Construction Health and Safety know how to help employers avoid prosecution, litigation, absence costs and loss of reputation.

Assurance – The NEBOSH International Certificate in Construction provides an assurance of safety - something which can help employers achieve recognised standards and can even win new business.

Return on investment – A worker with a NEBOSH International Certificate in Construction Health and Safety has a practical set of skills that brings real value to the modern construction site and other places of work.

What does the course cover?

It covers a broad range of construction hazards and how to control them. It is based on international standards. Local laws and cultural factors may form part of the study programme, where relevant.

Crucially, the practical element of the course ensures that participants can carry out, unaided, a safety inspection of a construction workplace and prepare an appropriate report.

How is the course assessed?

Candidates are assessed with written examinations for each of the two taught units and a practical assessment.

Where can I take a course leading to this qualification?

Details of NEBOSH Learning Partners throughout the world can be found on NEBOSH's website.

Please contact the Learning Partners directly to find out how their course will be structured.
