Globally recognised health, safety
and environmental qualifications

Stand out and gain recognition for your environmental management know-how with the NEBOSH International Diploma in Environmental Management.

What kind of people take the NEBOSH International Diploma in Environmental Management?

This qualification is designed for individuals with responsibilities for environmental management. It provides specialist knowledge on issues such as environmental management systems, sustainability and pollution prevention and control.

The qualification is invaluable for managers taking on environmental responsibilities and those aiming to develop and implement effective environmental management systems within their organisations.

What will I gain from this qualification?

Expertise – The NEBOSH International Diploma in Environmental Management will help you develop and implement highly effective environmental risk management within your organisation.

"We created this qualification in response to demand from employers and learning partners. It teaches practical skills and best practice that students can apply to real workplaces."

Matthew Powell-Howard, Head of Strategic Relationships, NEBOSH

Achievement – A NEBOSH Diploma is a degree-level qualification that is seen throughout the world as a mark of professionalism. The NEBOSH International Diploma in Environmental Management is a qualification you can be proud of.

You will be able to use the designatory letters IEnvDipNEBOSH after your name.

Career development – The NEBOSH International Diploma in Environmental Management will help you stand out and provide you with a platform for further career advancement. It also provides a sound basis for progression to further study at Masters level.

What will my employer gain from this qualification?

Return on investment – A worker with a NEBOSH International Diploma in Environmental Management has a high level of knowledge that brings real value to the modern workplace.

A more sustainable workplace – Workers with the NEBOSH International Diploma in Environmental Management help their employers to not only avoid prosecution, litigation and loss of reputation, but also demonstrate key social responsibility and ethics.

Assurance – An employer whose workers are NEBOSH qualified is an employer committed to managing environmental risk. The NEBOSH International Diploma in Environmental Management provides professional-level environmental assurance, which can help employers achieve recognised management standards, such as ISO 14001, and help to win new business.

What does the course cover?

This qualification covers environmental management principles, multilateral treaties relating to environmental management and ways to prevent and control pollution.

The syllabus is designed to provide learners with the relevant expertise wherever in the world they may be working, and to empower them to positively influence environmental management standards and practice at every organisational level.

Key topics covered by this qualification include:

- Benefits, limitations and structure of an environmental management system
- Environmental aspect identification and control

- The principles and drivers for environmental sustainability
- Waste minimisation strategies Further details including a guide to the qualification can be found on our website.

How is the course assessed?

Unit ED1: 'Controlling Environmental Aspects' – is assessed by a single written examination. This is a common unit that can also contribute to achievement of the NEBOSH International Diploma in Environmental Management.

Unit IDEM2: Environmental Regulation – is assessed through a workplace-based assignment, designed to assess the practical application of knowledge and understanding from Units ED1 and IDEM2.
