NEBOSH, the National Examination Board in Occupational Safety and Health, is a world leading provider of Health, Safety and Environmental qualifications.

Globally recognised health, safety and environmental qualifications

Gain the qualification that is raising standards of health and safety in construction throughout the world.

What kind of people take the NEBOSH International Certificate in Construction Health and Safety?

People from across the world who work in construction, civil engineering, utilities, facilities, broadcasting, property management and more. It is particularly suitable for managers, supervisors and others who need the right level of skills and knowledge to fulfil their health and safety responsibilities.

What will I gain from this qualification?

Knowledge – Whether health and safety is your main responsibility, or just a part of what you do, the NEBOSH International Certificate in Construction Health and Safety will give you vital knowledge to help you perform better in your role. You'll discover skills and techniques that are really useful and practical, not just theoretical.

Recognition – NEBOSH is highly regarded in the construction industry. Our qualifications are what employers seek when it comes to health and safety.

The International Certificate in Construction Health and Safety is accepted by IOSH (Institution of Occupational Safety and Health) in meeting the academic requirements for Technical Membership of IOSH (Tech IOSH), and the Association for Project Safety (APS) for Construction Safety Associate Membership (AaPS).

It also meets the requirements for Associate Membership (AIIISM) of the International Institute of Risk and Safety Management (IIRSM).

Career development – For some, the International Construction Certificate can be a first step towards a career in health and safety. For others, it forms part of an important set of qualifications which brings them success and advancement in their chosen field.

What will my employer gain from this qualification?

A safer workplace – Construction work can be very dangerous. Done properly, health and safety protects people from injury and loss of life. People with the NEBOSH International Certificate in Construction Health and Safety know how to help employers avoid prosecution, litigation, absence costs and loss of reputation.

Assurance – The NEBOSH International Certificate in Construction provides an assurance of safety - something which can help employers achieve recognised standards and can even win new business.

Return on investment – An employee with a NEBOSH International Certificate in Construction Health and Safety has a practical set of skills that brings real value to the modern construction site and other places of work.

What does the course cover?

It covers a broad range of construction hazards and how to control them. It is based on international standards. Local laws and cultural factors may form part of the study programme, where relevant.

Crucially, the practical element of the course ensures that participants can carry out, unaided, a safety inspection of a construction workplace and prepare an appropriate report.

Further details including a qualification guide can be found on our website.

Are you already one step closer towards your next NEBOSH Certificate?

Unit IGC1 of this qualification (Management of international health and safety) is common to the International General Certificate, the International Construction Certificate and the International Fire Certificate. You do not have to sit IGC1 again if you have passed it within the last five years.

How is the course assessed?

Candidates are assessed with written examinations for each of the two taught units and a practical assessment.

A unit certificate is issued denoting successful achievement of each unit. A certificate parchment is issued on completion of the two units and the practical assessment.

Where can I take a course leading to this qualification?

Details of training providers who are accredited to deliver the qualification can be found on the NEBOSH website. These accredited training providers offer courses to fit around your requirements:

- Distance or E-learning
- Day or evening courses
- Block release or modular courses

Sometimes courses can be arranged to take place where you work. Employers can also become accredited NEBOSH course providers so that they can provide in-house training for staff.
