Globally recognised health, safety and environmental qualifications

# Stand out and gain recognition for your environmental management know-how with the NEBOSH National Diploma in Environmental Management.

## What kind of people take the NEBOSH National Diploma in Environmental Management?

This qualification is designed for individuals with responsibilities for environmental management. It provides specialist knowledge on issues such as environmental leadership, sustainability and pollution prevention and control. It is invaluable for managers taking on environmental responsibilities and those aiming to develop and implement effective environmental management systems within their organisation.

## What will I gain from this qualification?

**Expertise** – The NEBOSH National Diploma in Environmental Management will help you develop and implement highly effective environmental risk management within your organisation.

**Achievement** – A NEBOSH Diploma is a degree level qualification that is seen throughout the world as a mark of professionalism. The NEBOSH National Diploma in Environmental Management is a qualification you can be proud of.

**Recognition** – Achieving your NEBOSH National Diploma in Environmental Management means that you have fulfilled the requirements for IEMA Practitioner level membership (PIEMA) and will have your application fast-tracked as long as you apply within three years of achieving your Diploma.

You will be able to use the designatory letters EnvDipNEBOSH after your name.

**Career development** – The NEBOSH National Diploma in Environmental Management will help you stand out and provide you with a platform for further career advancement. It could take you to the next level and beyond. It also provides a sound basis for progression to further study at Masters level.

“We have complete confidence in NEBOSH’s environmental management courses because of their high quality and their ability to successfully upskill thousands of working professionals each year. There is such synergy between our standards and mutual dedication to skills that working together on training and developing people with environmental responsibilities has been a real meeting of minds. Long may it continue.”

**Tim Balcon**  
Chief Executive, IEMA

## What will my employer gain from this qualification?

**Assurance** – An employer whose staff are NEBOSH qualified is an employer committed to managing environmental impacts. The achievement of NEBOSH National Diploma in Environmental Management provides professional-level environmental assurance – which can help employers achieve recognised management standards, such as ISO:14001, and help to win new business.

**A more sustainable workplace** – People with the NEBOSH National Diploma in Environmental Management help their employers to not only avoid prosecution, litigation and loss of reputation, but demonstrate key social responsibility and prevent environmental pollution.

**Return on investment** – An employee with a NEBOSH National Diploma in Environmental Management has a set of high level skills that brings real value to the modern workplace.

## What does the course cover?

This qualification covers environmental management principles and the main pieces of UK and European Union legislation for environmental protection, energy efficiency, and management and control of environmental risk.

The syllabus is designed to provide students with the relevant expertise and to empower them to positively influence environmental management standards and practice at every organisational level. Key topics covered by this qualification include:

- Benefits, limitations and structure of an environmental management system
- Environmental aspect identification
- The principles and drivers for environmental sustainability
- Principles of pollution prevention and control

Further details, including a full guide for the qualification, can be found on our website.

## How is the course assessed?

Understanding of the ‘Controlling Environmental Aspects’ (Unit ED1) is assessed by a single written examination. This is a common unit that can also contribute to achievement of the NEBOSH International Diploma in Environmental Management.

Environmental Regulation (Unit NDEM2) is assessed through an assignment based in the candidate’s workplace.

## Where can I take a course leading to the NEBOSH National Diploma in Environmental Management?

Details of training providers who are accredited to deliver the qualification can be found on the NEBOSH website. These accredited training providers offer courses to fit around your requirements:

- Distance learning
- Day or evening courses over a number of weeks
- Block release or modular courses.
